IN REPLY REFER TO:

L6016(PWR-PR)

October 15, 2012

Michael Machado, Executive Director Delta Protection Commission 2101 Stone Blvd., #210 West Sacramento, CA 95691

Dear Mr. Machado:

Thank you for your application for continuing assistance from the National Park Service, (NPS), Rivers, Trails and Conservation Assistance (RTCA) Program. We are pleased to inform you that we have selected Great California Delta Trail as one of over 40 projects that will receive community assistance in FY 2013. We are excited to be able to collaborate with you in support of this community -based initiative.

Assistance from the NPS, RTCA program will be provided during the 2013 federal fiscal year, which ends September 30, 2013. We encourage you and your partners to use the value of our technical assistance to leverage additional project resources and as a match for non-federal grants.

Award Requirements

As an important component of our ongoing working relationship, we continue to ask the following of you and your project partners during our work together:

- Commit significant time and resources (financial, in-kind, overhead, etc.), along with other project partners, to match our assistance;
- Acknowledge and credit NPS assistance in press releases, promotional materials, maps, and publications such as newsletters, surveys, brochures, and final concept plans;
- Provide copies of print and digital products and media news to RTCA staff, including any final concept plan or other project products;
- o Complete a Project Close-Out Report at the end of NPS assistance (enclosed).

Measuring Success

Each year, on average, our partners across the country create over 1700 miles of trails, conserve more than 60,000 acres of open space, and protect more than 1000 miles of rivers. Congress measures our program's success by looking at the tangible, on-theground results (miles and acres) our partners have achieved 5 years after we complete

our community assistance. Keeping an on-going record of your project successes will help all of us report good results, especially as there are often changes in staff over time.

We look forward to another successful year of collaboration with you and your project partners. Please feel free to contact me anytime at 415-623-2320 to discuss any issues or concerns you might have regarding NPS assistance. Thank you for your interest in the National Park Service.

Sincerely,

Barbara Rice

Program Manager, RTCA, PWR
